

HAWKER ART EXHIBITION TO BE AVAILABLE ON THE INTERNET

All artists entering the 2008 Hawker Art Exhibition are requested to carefully read the following information concerning this feature of the Exhibition:

The Exhibition Committee has again decided to make the 2008 Art Exhibition catalogue and a selection of photographic images of paintings available for viewing on the Internet and for purchase of works. This popular feature was introduced in 1999.

The benefit to you as an exhibiting artist may be twofold:

1. Exposure of your work to a potentially larger and wider audience.
2. A means for you to check the progress of sales during the exhibition.

• **PLEASE NOTE**

This feature of placing photographic images of paintings on the Internet:

1. Is free to you when you enter the 2008 Exhibition.
2. Is subject to obtaining your permission to do so. We will only place images on the Internet if you have given us permission to do so.

• **THIS IS HOW THIS FEATURE WILL WORK**

1. The entire catalogue of paintings (in text form) will be placed on the Internet for the duration of the Exhibition.
2. Paintings of artists who have given the Committee permission will be photographed using a digital camera and at least one image per artist placed on the Internet at any time.
3. Visitors to the website may request to have images of other paintings made available to them. Again, this is subject to prior permission of the artists requested.
4. The Exhibition Committee reserves the right to choose which paintings will have images placed on the Internet.
5. The Exhibition Committee seeks your approval before considering placing images of your work on the Internet.

• **YOU CAN CHECK US OUT**
